## 1. INTRODUCTION/WELCOME

### 1.1 Welcome

Welcome to Croatia – Full of Life! Welcome to Karlovac County – In medias res!

Welcome to 5<sup>th</sup> QUATTRO RIVER RALLY™ 2026!

We wish You a pleasant stay in Karlovac and Karlovac County while You explore the natural beauty of County and cultural and historic heritage of Karlovac, Ozalj, Duga Resa and surrounding places where the rally is taking place.

### 1.2 Event overview

This event was most famous for taking place on stages that were used as World Rally Championship stages during Croatia Rally (2021-2024) including perhaps the most iconic one passing the Old town Novigrad na Dobri and crossing river Dobra over the historical roman bridge.

This year we take you on brand new rally stages that have never been used before on whose itinerary you will meet beside the four rivers, four historic fortifications as well.

## 16. USEFUL FACTS

### 16.1 *Climate*

The climate of Croatia varies from Mediterranean along the Adriatic coast to continental, inland. The coastal areas have hot, dry summers and rainy winters yet the inland areas are cold in winter and warm in summer. The coast benefits from refreshing winds in the summer and the mountain ranges shield them from bitter winds in the winter. Sea temperatures never fall below 10 degrees in the winter and in August it can be as high as 26 degrees, due to warm currents flowing north up the Adriatic coast. In spring and early summer a sea breeze keeps the temperature down along the coast. This breeze that usually starts around 9am is perfect for sailing. The islands benefit from up to 2715 hours of sunshine a year, the sunniest being Hvar. Winter temperatures range from -1 to 30°C in the continental region, -5 to 0°C in the mountain region and 5 to 10°C in the coastal region. Summer temperatures range from 22 to 26°C in the continental region, 15 to 20°C in the mountain region and 26 to 30 °C in the coastal region.
